WINNIPEG, April 7.
Two companies have been formed in Winnipeg to bore for oil in Lake Dauphin district.

Upwards of 300 immigrants arrived in Winnipeg last night, mostly from the Old Country. Arrivals this season over two thousand.

A Fort Assiniboine, Montana special to the Pioneer Press says—"Edward Caldwell, a wealthy Englishman of Pellysburg, Montana, was found murdered near here yesterday. His head was horribly mangled, and with other indications, point to its being Blood Indians who raided Dear and Kennedy ranches, in that vicinity, on the same night as the perpetrators of the crime. Every effort is being made to apprehend the murderers. The foreman of a cattle company at Mackay arrived at Hector yesterday and reports a hundred. Bloods crossing the International boundary into Montana despite the efforts of the Mounted Police. He met a party going north with twenty stolen horses.

Two ships, the Eldorado and St. Vincent, have been lost off Cape Flattery with nearly all on board.

English Liberals are addressing mass meetings against the Coercion Act.

The Queen arrived yesterday at Aix Les Bains.

Mr. Lowe, Secretary of the Department of Agriculture, is visiting the Northwest.

Prince Alexander has declined reappointment to the Bulgarian throne.

Prof. Tanner has arrived. He intends establishing two settlements for farmers. One at Qu'Appelle to be a training school, and the other on the line of the Manitoba and Northwestern.

The following additional appointments have been made in connection with the Supreme Court—Northern Alberta, L. A. Billy, ex M.P. for Dunlop, clerk, residence, Calgary; Southern Alberta, D. J. Campbell, sheriff, C. N. Campbell, clerk, Saskatchewan, Harold E. Ross, Sheriff, residence, Prince Albert.

Domestic immigration sheds, Winnipeg, have been destroyed by fire.

Three Mounted Police despatchers, Wadon, O'Brien and McGee, arrived at Fort Assiniboine after terrible sufferings. Owen will die, probably others as well.

The C. P. R. agent at Balgonie has been arrested for robbing baggage.

Gabriel Dumont is in St. Paul. He intends going into the Sun River district.

The sailing steamer Eagle has gone down off the coast of Newfoundland and 250 lives lost.

The first C. P. R. steamer leaves Hong Kong for Vancouver May 1st.

Sir Charles Tupper will shortly visit Manitoba and the Northwest.

Brown, Douglas, and two or three other members who were elected to support the Norquay Government, are said to have deserted him and intend to form a new Government with Brown as Premier. The support of the opposition has been promised provided certain measures are carried through, including the curtailment of expenditure and the adoption of a liberal immigration policy, and the policy of disunion is also opposed. Result of complications not known, but it is thought a dissolution will take place. Mr. Norquay has been at Ottawa some days on disallowance and other matters, and will return to-morrow. Result of the mission not known.

One hundred cents in the dollar has been offered for P. A. school debentures. It has not been decided, as yet, to accept the offer. Seeing that the bonds are the first charge against the district and that they bear interest at the rate of eight per cent, par is none too high for them.

The Several Clerks of the High Court of Justice, acting as such on the 17th day of February, 1887, to be, within their respective Judicial Districts, Registration Clerks, under and for the purposes of Ordinance No. 5 of 1881, entitled "An Ordinance respecting Mortgages and Sales of Personal Property," and to hold office respectively with Clerks of the Supreme Court of the Northwest Territories have been appointed and have entered upon their duties.

The Ontario will be commanded by Captain Jacobson Morrison; Edward Mitchell, master; John Davidson, engineer; first mate, W. Anderson; second mate, N. McLeod.

We would remind our readers that at the last annual meeting of the Local Agricultural Society it was decided to incorporate, and the Committee are now desirous of making up the roll of membership in order that the necessary application may be made at once. Fifty members are required to subscribe before anything further can be done, and there should be no difficulty in getting the number. The annual subscription is only one dollar, and all members paying will, of course, be members of the incorporated Society. Mr. A. H. Clark, the Sec. Treas., or any of the directors, will be happy to receive subscription lists.

PARTY GOVERNMENT.

A correspondent of the Toronto *Week*,
the organ of Goldwin Smith, is authority
for the statement "that a revolt is be-
ginning in earnest against the dominion
of party, and that men are asking on all
sides to be shown some way of escape
from the party system." This statement
for its text the *Week* deals at
length with the evils of the party sys-
tem, and advocates, as a cure for the
evils complained of, the election of In-
dependent, or no-party men. That there
are evils under our system of govern-
ment we will not attempt to deny, as
alleges exist under all forms of govern-
ment. But the strange feature in the
contention of the journal referred to is
that while it builds up, in its imagina-
tion, a system of government upon an
independent and solid basis, by citing
the fact that in New South Wales, where
an "independent" political system exists,
there have been three different ministries
in the last six months, it shatters its own
ideal; it shows how unsubstantial and
unsatisfactory such a political system would
be to a great country like Canada.

The *Week* says: "In England, the
parent and model of the party system,
we see the integrity of the nation near
the sport of faction, and likely to perish
in the fray. To all which must be added
the growing instability of governments,
which arises from the inevitable splitting
of factions into sections, not one of which
is broad enough to form the basis of a
ministry. In Australia you have three
ministries in six months. No government
much more stable in the Parliamen-
tary countries of Europe, except in
Germany, where, though the hydra of
faction has already nine or ten heads, at
least, it is at present kept under control
by the personal power of Bismarck. In
England herself the two parties have
split into four or five, not one of which
is strong enough to govern the
country, while by their attempts to
patch up alliances for the purpose of
grasping power, they compromise the
most vital interests of the State."

Could a stronger condemnation of the
no-party doctrine be needed. Evidently
if we desire a strong government, such
as we have had for the past 19 years,
we must endeavor to discourage the growth
of factions, whether represented by one
Independent or more, whose "attempts
to patch up alliances, for the purpose of
grasping power," may "compromise the
most vital interests of the State."

In an article in the *Portsmouth Review*
entitled "Democracy in New South
Wales," Mr. Augustus Nash, of Sydney,
refers at length to the results of the
no-party system in that colony. Mr.
Nash says:

"The day of a contested election causes

hardly any stir, and passes almost un-
noticed. The number of votes recorded,
compared with the number on the regis-
ter, is very small; there is no enthusi-
asm for any candidate, and very rarely
any marked disapproval. There is fre-
quently more excitement over a school
board or municipal election in England
than over the election of a member of
Parliament in New South Wales. The
next noteworthy fact is the absence of
parties. There is, of course, a ministry
and their followers; there is also an op-
position, but there is no dividing line of
principles or even of party names to sepa-
rate them. Every one, or nearly every
one, would say he was a Liberal, but be-
yond that there would be no definition
attempted. There are certain sectional
divisions such as Catholic and Orangemen,
but it is only on certain subjects that
they vote *en bloc* against one another.
The same may be said of the licensed
victuallers and the local opticians. Just
lately there has sprung up the question
of protection as against free trade which
may afford a dividing line for the future,
but certainly does not do so at the
present time. A third noteworthy
feature is the short duration of Parliam-
ent. By law the Parliament cannot
exist in three years, but it very rarely
attains that age. The quick succession
of ministries is simply bewildering. Dur-
ing the first six months of Lord Carrington's
government there were three dif-
ferent ministries."

If the succession to office of three min-
istries in six months be an evidence of a
healthy state of public affairs, then New
South Wales is a much favoured colony.
But even the advocates of no party, of
which the advocates of no party, of
which the quick succession of minis-
tries is the evidence, believe in a strong
government. Where there is no unity
there can be no guarantee of perman-
ence, and a feeble government is a
blight rather than a blessing to any
country.

It is therefore the duty of every man
to ally himself with either of the two
great parties, and to discourage the no
party cry. Two parties are absolutely
necessary, and the stronger they are in-
tellectually and the more loyal they are
to their principles and to their leaders
the better for the country.

EDITORIAL NOTES

THE settlers of Peace River, Atha-
basca, district are about to petition the
Lieutenant-governor for representation
in the Northwest Council.

THE *Globe* has consented to pay \$10
damages and costs in each case and ap-
ologize for the libel it printed against
R. Northrop, of Belleville, and D. K.
Murphy, of Trenton. This must be a
hard pill for it to swallow, inasmuch as
it is an admission that it did publish what
it knew to be false, or, at least, what
it could not prove to be true, some-
thing that journal is not in the habit
of admitting.

SPEAKING of the Bell farm, the *Win-
nipeg Manitoban* says:—"The experience
of the past four or five years clearly
shows that the Northwest will never be
built up into a prosperous country by
any such schemes. It is rather the
farmer who tills his own soil and reaps
his own harvest on his own 100 or 320
acres that is needed. It is, in fact, by
the working capitalist that the North-
west must be brought to its full measure
of prosperity."

THE authority for the statements con-
tained in "Behind the Scenes" in the
Winnipeg Free Press of March 22nd, is
probably the man who bought scrip in
Edmonton in 1885, and whose reputation
as such in the district is not the best.
He is also, no doubt, the same individual
who bought furs here previous to the
election, and acted the coachman for
the notorious Campaign, who was heard
to say that "if he had had twice as much
money and twice as much time he would
have put Laird in."

EASTERN GRIT papers are asking
why the ballot system was not adopted in
the late Northwest elections, and are laying
the blame of the defeat of their candi-
dates to open voting. One Grit journal
even goes so far as to say that people
who do not know how to mark their
ballots do not know how to vote. We
differ with the journal in question. A
man may not know how to mark a bal-
lot for the candidate of his choice, and
yet by open voting he can give an in-
telligent expression of his desires. The
ballot is, perhaps, the fairest system of
voting, but to impose that system upon
the illiterate native population of the
Northwest would be equivalent to dis-
franchising them, and would weak-

admitting, for the sake of argument, that
the natives are Liberals—rather than
strengthen the force of the latter. There
is but one reason for the defeat of the
Liberal party in the Northwest, and
that is the overpowering one that the
great majority of the electors are Con-
servatives.

SPEAKING of the late election in Alberta
the *Macleod Gazette* says:—"We have
before argued that Alberta was entitled
to more than one representative, and
if there were nothing else, this election
proves the urgent need of it. If Mr.
Hardisty is elected the country south of
Bow River will be virtually without
representation. There are too many
people in that country and it is too
wealthy and important to be so neglected.
At the time the census was taken, As-
siniiboia was given two representatives
owing to the greater population in that
district. That was in 1885. Since that
time immigration has poured into Al-
berta. The bulk of these people has not
only passed right through Assiniiboia to
settle in Alberta, but our population has
been recruited from Assiniiboia itself,
and we believe that, if a census were
taken now, the population of Alberta
would equal if not exceed, that of its
territory. The vote of this section
will be no guide for the Government in
judging of this matter, for most of the
settlers who came in after the census was
taken have not been here a sufficiently
long time to vote. But the fact remains
that Alberta is as much entitled to two
members as Assiniiboia, and we believe
that when the Government become fully
aware of this they will give us a second
representative."

PUBLIC MEETING.

The adjourned meeting called for the
purpose of forming a fire brigade, took
place in the Council Chamber last even-
ing, His Worship Mayor MacArthur in
the chair. H. W. Newlands acted as
secretary. The minutes of the last
meeting were read and approved. After
considerable discussion R. Gwynne moved,
seconded by T. O. Davis, that the motion
passed at the last public meeting to
purchase a \$3,500 fire engine be re-in-
sisted. Carried.

T. O. Davis then moved, and W. R.
Fish seconded, that a hook and ladder
company be formed. Carried.

The following persons then volunteered
to join the fire brigade:—W. R. Fish,
R. Gwynne, G. T. Brown, T. O. Davis,
Wm. Belliveau, A. R. Sprat, Geo. An-
derson, James Turner, Albert Hodgson,
R. J. Pritchard, George McLeod, A.
Agnew, Jas. Wignome, P. C. Baker, Dr.
Bain, W. J. Carter, Jas. Sinclair, J. P.
A. Stull, Wm. Dickson, J. D. Maveety,
Jno. Stewart, and the Mayor.

Moved by T. O. Davis, seconded by
W. R. Fish, that a committee be ap-
pointed to get a list of names of parties
willing to join a fire brigade, and take
steps to organize a brigade.

Messrs. F. C. Baker, George McLeod,
W. R. Fish, Albert Hodgson and J. D.
Maveety, were appointed the canvassing
committee. The meeting then adjourned
to meet on Wednesday evening next at
8 p. m.

Praise and Prayer.

In the Minnesota Senate the other day
the chaplain started that august body
by closing his prayer with a word for
the newspaper men. He said:—"And
now, dear Lord, bless the reporters,
whose nimble pens catch our every word
before it is uttered. Let them, I pray,
be omniscient and almost
omnipotent. If we take the wings of the
morning and fly to the uttermost parts
of the earth they are there. They meet us
in the jungles of Africa; they waylay us
in the solitary canyons of the Colorado,
and when at length we find the latitude
of the magnetic pole, behold they are
there. May their light and goodness be
equal to their power, and when the
general assembly of heaven convenes let
no reporter be excluded." They'll all be
there or know the reason why.

ADVICE TO MOTHERS.—Are you distressed
at night and broken of your rest by a
sick child suffering and crying with pain
of cutting teeth? I would not once and
get a bottle of "Mrs. Winslow's Soothing
Syrup" for children teething. Its value is
incalculable. It will relieve the poor
sufferer immediately. Depend upon it, mo-
thers, there is no mistake about it. It
cures Dysentery and Diarrhoea, regulates
the stomach and bowels, cures Wind Colic,
softens the gums, reduces Inflammation,
and gives tone and energy to the whole sys-
tem. Mrs. Winslow's Soothing Syrup is
for children teething is pleasant to the
taste and is the best medicine of the dis-
eases and bowels of infants and nurses
in the United States, and is for sale by all
wholesale and retail druggists. Be sure and ask
for "Mrs. Winslow's Soothing Syrup" and
take no other kind.

TERRITORIAL NEWS.

EDMONTON.

From the *Bulletin*, March 12th.

G. A. Blake, of Belmont, shot a large white, snowy or Arctic owl near his place last week. This bird is a native of the far north and is seldom seen here.

The assessment of the Edmonton school district has been completed and amounts to \$208,068, \$238,873 being real property, \$136,773 personal property.

The annual meeting of the Edmonton Rifle Association was held in Jas. McDonald's shop on Tuesday evening. The secretary read a communication from Col. Macpherson, of the militia department, regarding ammunition for the association. It had been decided that an order for the necessary ammunition would be issued upon the militia stores here on receipt, by the department of the price fixed. Also that the use of 30 revolvers from the militia stores would be allowed. Messrs. W. Stiff and J. A. Macdonald were appointed auditors, and the meeting adjourned until Friday evening, March 25th, to meet at the same place.

Dr. McKay, H. B. chief trader in Peace River district, arrived from Slave Lake on Friday. He experienced a heavy snow storm at the Athabasca Landing on the way in. The winter has not been severe at Slave Lake and horses are wintering out well. The measles and whooping cough have ceased their ravages at that vicinity for the present. A Mr. Holmes, Church of England missionary, has opened a school at Slave Lake and has an attendance of about 30. Excellent progress is being made by the pupils.

A school meeting was held in Saskatchewan district, on Monday last, at the call of the inspector of Catholic schools, Rev. Pere Leclerc. Complaints had been made to the inspector as to the management of the finances of the district. He called upon the treasurer to produce the books for examination, which he refused to do. After a somewhat animated discussion the meeting was closed and the inspector telegraphed to the secretary of the Board of Education at Regina. He received an answer by telegraph that as soon as his complaints in writing were received a new election of trustees would be ordered.

The concert at Fort Saskatchewan in aid of the Presbyterian church was well attended, there being considerable detachments from Edmonton and Clover Bar in the audience. The musical part of the programme was given in the schoolhouse, and refreshments were afterwards served in the Palace Hotel near by. The proceeds over and above expenses amounted to some \$60.

BATTLEFORD.

From the *Herald* of March 19.

A brigade of carts—the first of the season—pulled out for the railway on the 19th.

Messrs. H. J. Montgomery and Wm. Peterson have left for the east to pay a visit to their friends.

At a meeting of the Protestant School Trustees held last evening Mrs. A. Manix of this place was appointed teacher to fill the vacancy caused by Miss Buchanan declining to come here.

The contract for supplying tamar poles for the telegraph poles for the telegraph line between Battleford and Clark's Crossing has been awarded to Mr. Tupper, of Victoria; and for the line between Clark's Crossing and Humboldt to Baptiste Boyer.

A train of freight, sent in on Government contract account by F. Fraser Times, arrived from Swift Current on Tuesday. Several brigades belonging to local merchants are about due, and freighters generally are getting ready to take the road as soon as there is a thaw.

FORT MACLEOD.

From the *Gazette* of March 22nd.

A gun club has been formed at Macleod. Glass ball shooting will be the leading amusement of the club.

A train got through to Dunmore on Wednesday night, seventeen days on the road. About seven miles of the road was washed out.

Rev. R. Hilton held service at Pincher Creek on Sunday. Rev. Mr. Bourne taking his place at Macleod. Rev. Father Van Tiplan officiated at the Roman Catholic church, and Rev. J. McLean at the Methodist church.

Arrangements have been made to build a Methodist church at Pincher Creek this summer. A building committee has been formed and the site selected, and it is expected that the building will be finished by September.

A small flock of geese passed north over Macleod on Tuesday afternoon. So far as we know, these are first of the season. These geese had not ordinary good sense, for they were running their noses right into a snow storm.

Mosquito Creek is at length to have a postoffice.

MEDICINE HAT.

From the *Times* of March 26th.

The thermometer was only 65 degrees above zero last Sunday.

With a base ball nine, two cricket clubs and several fast horses, we ought to put in a pretty lively summer round Medicine Hat this summer.

Capt. Norman, for the past eighteen months in charge of the Mounted Police here, is about to be transferred to British Columbia.

It was on the 11th inst. that the ice broke up in the Saskatchewan river. What would the people of Winnipeg think if the Red River was clear of ice at this early season? However, they may consider themselves lucky if the six feet that now forms a covering for the surface of that placid stream is carried out in two months. Talk about climate once.

Last Tuesday Geo. Macdonald, while on his way to this city from the Red Deer ranch, came very near calling for a check for the other shore. At this season of the year—and especially after a winter renowned for a very large fall of snow—the Seven Persons River is inevitably high. The water is inclined to be somewhat muddy, also, in the month of March. But George had no fear of high water with a little mud on the side, and mounted like a knight of yore on his northwestern territorial steed of dapple bay, he launched forth into the raging boom of the Seven Persons. What then "prespired," as Hugh Dempsey would say, would make the capillary appendage on the apex of the average man's head assume a standing posture. The dire catastrophe could only be told in Mr. Macdonald's graphic style, and he yet lives to tell the tale. The whole affair was tragic in the extreme, and it is with a sense of pleasure that we herald the glad tidings throughout Europe and the North American continent that George and his steed, though separated in the water, have again met on this side of the Seven Persons.

GENERAL NEWS.

Ex Ald. Harston, of Guelph, Ont., has absconded to the United States. His liabilities are heavy.

Edward Tierney, a young man who lived near Trenton, shot himself fatally with a shotgun yesterday. Dissipation is supposed to have been the cause.

David Aann, resident of Bertie, was run over and killed by a Grand Trunk train near Stevensville, on the 26th ult.

The Government bill to abolish the Legislative Council of New Brunswick has been thrown out by a vote of 12 to 5.

At noon on the 26th May, Stanley Steele, of Manchester, N. S., entered the Merchants' Bank here and thinking W. S. Currie, who was in charge, was alone, asked to see him privately. When they got into the office Steele drew a revolver and shot Currie in the head. The bullet made a flesh wound only, and a struggle ensued during which Currie was shot in the side. A messenger who was in the bank ran for assistance when the first shot was fired, and four men overpowered Steele. He says poverty impelled him to attempt to rob the bank. Currie's wounds are not serious.

The Governor General-in-Council has disallowed the act to incorporate the Rock Lake, Souris Valley and Brandon Railway Company, passed by the Manitoba Legislature.

An order-in-council has been passed, subjecting all patents issued by the Government for land in Manitoba and the Northwest Territories to a clause reserving fishing rights.

Hick's boat house, Toronto, was burned on the 26th ult. Loss, \$3,000. A large number of boats owned by private parties were stored in the building.

A heavy gale on the 26th ult. blew down a house on the island, Toronto, and dashed waves up against others.

The directors of the various cemeteries, Toronto, have decided to close them

against Sunday interments except in cases of extreme necessity.

The Court of Appeal, Montreal, has confirmed the judgment of the lower court, which declared legal the city by-law imposing a tax of \$200 upon each ferry boat owned by the Longueuil Navigation Company. The court also confirmed the judgment which gave the Canada Shipping Company damages against the Toronto *Mail* for a libel contained in an article published 29th June, 1882.

On the arrival of the 530 Italian passengers of the wrecked steamer *Scotia* at Castle Garden late on the evening of the 27th ult, the scene that followed beggared description. They rushed into the Rotunda pell mell, shrieking and howling for food like ravenous wolves. The force of the mass of people was so great that the officers who were stationed to keep order were swept aside like straws. The strong men crowded to the front with uplifted arms and their eyes starting from their sockets crying in Italian, "Bread, bread!" It was impossible to regulate the distribution of food. The women and children were cared for and milk and beer added to their portions.

Thos. A. Harding, the Glendale stage robber, was hanged at Dilbot, Mont., on the 25th ult. He shot Gus Ferguson, a coach driver, on May 29, 1886.

Pat Gunman and Mat Turney, boys and stowaways, were found, on March 26th, in the hold of the steamer *Kansas*, which arrived at Boston on the 25th ult., fourteen days from Liverpool. The hatches were fastened down and covered with freight. All the food the two young men were able to obtain was the particles of wheat taken from the cracks in the steamer, and all the water they could get was that furnished by the "sweat" of the steamer. They are both in a very critical condition.

Jackson Marion, the murderer of John Cameron, was hanged at Beatrice, Neb., on March 25th. Marion murdered Cameron in April, 1872, nearly fifteen years ago, while driving to Grasshopper Falls, Kansas, to work on the St. Joe & Denver railroad grade.

His Birding.

"It ain't everybody I'd trust my little gal to," said an old-fashioned Skinner to the love-lorn young granger who had become enamored with Miss Sallie Skinner, and wished to carry her from the loving care and shelter of the home nest.

The "little gal," who was five feet and eleven inches tall in her bare feet (as she was at that moment), hid her happy, blushing face on the dear, fond old farmer's shoulder, and wept happy tears as he said to the deeply moved lover:—"You must take good heed of my wee birdling, Jack. Recollect that she's been raised kind o' tender like. Two acres a day is all I ever asked her to plow and an acre of corn a day is all that she is used to hoeing."

"She kin do light work, such as making rail fences, and digging post-holes, and burning brush, and all that, but ain't used to reg'lar farm work, and you mustn't ask too much of her. It's hard work for her old dad to give his little Sunshine up. He'll have to split his own cord wood and dig his own taters now. But go, birdie, and be happy!"
